

Know your profit. Every trip.

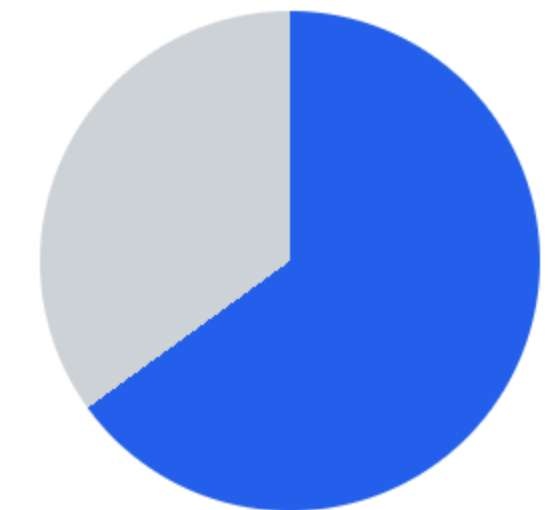

Financial intelligence for African road freight

"Know the cost of every load before the wheels roll."

Still Quote in Spreadsheets

65%

of South African fleets rely on manual processes, leading to inefficiencies and errors in pricing and dispatching

■ Spreadsheets ■ Digital Solutions

Revenue Lost to Errors

15%

of potential revenue disappears due to pricing and billing errors in manual workflows

Pricing Errors

Billing Mistakes

Missed Charges

Calculation Errors

Rising Costs Squeeze Every Kilometer

↑ Diesel and toll costs continue to rise, putting pressure on already thin margins for fleet operators

Why Now: The Data Opportunity

2.3M

Telematics Units Installed

Data locked in operational silos ready to be unlocked

POPIA Compliance Deadlines

Regulatory changes pushing digital adoption across the industry

Investor Preference Shift

Growing focus on asset-light, data-heavy logistics plays

Market Opportunity

R 1.0 bn

SA freight-management software spend, 2024

2.3 m

connected trucks (Q4 2023)

R 1.1 trn

logistics economy

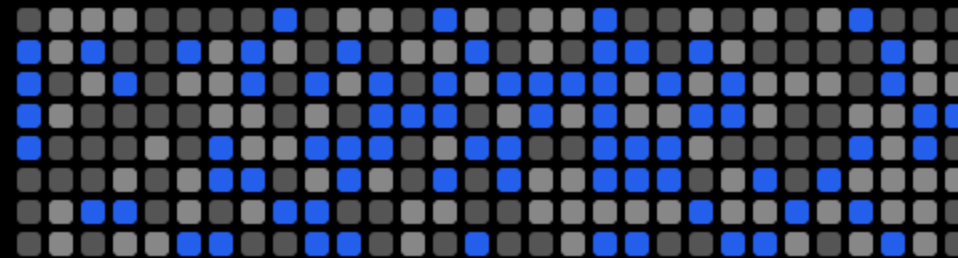

Software Market Growth to 2031

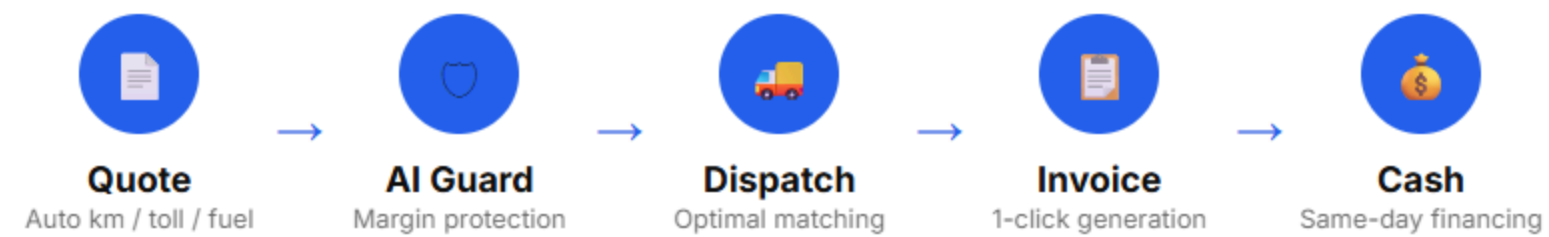

Mid-size Fleets **Waiting**

11,000

operators in the SADC region with 20-150 trucks need modern fleet management solutions
