

HAULNOW

Fleet Intelligence Powering Modern Trucking

AI-native ERP for African road freight

Still Quote in Spreadsheets

65%

of South African fleets rely on manual processes, leading to inefficiencies and errors in pricing and dispatching

Revenue Lost to Errors

15% of potential revenue disappears due to pricing and billing errors in manual workflows

Source: Softlink Global logistics errors report

Rising Costs Squeeze Every Kilometer

Diesel and toll costs continue to rise, putting pressure on already thin margins for fleet operators

Why Now: The Data Opportunity

2.3M

Telematics Units Installed

Data locked in operational silos ready to be unlocked

POPIA Compliance Deadlines

Regulatory changes pushing digital adoption across the industry

Investor Preference Shift

Growing focus on asset-light, data-heavy logistics plays

Source: Berg Insight 2024 / SA telematics penetration
